WITH the elder Widemann acting as a commissioner to Washington in the interests of the restoration of Liliuokalani it is not to be wondered that Carl Widemann is found a petty officer among the forces engaged in open rebellion against the Government. It is not alone through outside influences that young men's minds have been poisoned. Actions speak louder than words.

HISTORY REPEATS ITSELF.

The history of the revolution of 1893 has been repeated with wonderful accuracy in the events of the month of January, 1895. During the opening weeks of the year the country has experienced a second attempt of the followers, or rather the malcontent adherents of Liliuokalani to overthrow the personal and property rights of the citizens to which the country owes its prominent position among the nations of the world. As January 17, 1893, witnessed the entrance of a Government pledged to maintain the inalienable rights of citizenship, on January 17, 1895, was celebrated the strength of that Government to quell the revolution set on foot by the disturbing element.

In many respects the country is in the same position as two years ago except that the cause of annexation has doubled its strength in the minds of the American people. Then, as now annexation is the great object in view and this country is nearer the realization of its hopes than ever before. Though the comparison is rather far-fetched, it is possible that in the person of Commissioner Blount Hawaii entertained an angel unaware. Every move of President Cleveland to cast discredit upon the Provisional Government or the Republic has bounded back with a reflex action, the force of which has been increased a thousand fold as the truth has slowly but surely been unfolded before American citizens. A thousand and one voters, who had but a vague idea of Hawaii and its interests, have in the past two years been undergoing an educational process, the efficacy of which was to a certain extent displayed in the Congressional elections of 1894.

At that time was heard, with no uncertain tone, the voice of the American people. It was not Republicans alone who rose in a body to condemn the Administration's Hawaiian policy; party lines were wiped out of existence, Democrats and men of every political stamp joining in the cry. It must not be presumed that President Cleveland's policy has been a Democratic policy. The political events of the United States have yet to show it, if this is true. Thus far we can see nothing but a display of personal animosity from President Cleveland and Secretary Gresham against President Harrison.

The seeds of truth have been quietly doing their work, and with the reception of the news of the present outbreak, American patriotism will be roused to action of no uncertain type. A finishing blow may be given the questionable policy that has obtained for two long years of uncertainty, and the opportunity offers for the friends of annexation to strike while the iron is hot. Now is the time, if ever, to place the cause of annexation before the American Congress. The feasibility of again repeating the history of 1895 by sending a commission to Washington fresh from the scene of contention commends itself. A strong petition in the hands of able representatives

already on the ground would also be a move in the right direction. Americans must not be allowed to forget that it is American interests Hawaiian citizen soldiery have fought to maintain. We must take the current when it serves, or lose our venture.

What the people are after today and all the time is labor-saving machinery. It does not make any difference what the line of business is labor-saving machinery is sought after. Men whose minds take an inventive turn put the energies in this direction more than any other, the manufacturers demand it and the inventors are trying to fill the demand. We have among our goods probably a hundred different articles designed for this purpose. Among the most important of these are the implements used in the cultivation of sugar cane land. Take first the Fertilizer Distributor, a machine worked by one man that will distribute the fertilizer over nine acres of land in one day. It not only saves labor but it does the work more thoroughly and with absolutely no waste of material. Our orders for this article have exceeded the demand and we have been obliged to order more. The Cane Cultivators from the same factory are recognized on Hawaii to be much superior to anything of the kind ever used here. These implements are not experiments, they have been used for a long time in Louisiana where they have given great satisfaction.

The Wertheim Duplex Sewing machine is more of a labor saver than any other make, because it does a greater variety of work. Every lady knows the trouble it is to sew ruffles, and that a machine that will sew just what is necessary for ruffles is not the stitch that answers for making boys trousers. It's a labor saver that will sew both and the Wertheim is the only one that will. It not only sews the chain and lock stitch, but it makes a combination of both that is as pretty an embroidery stitch as you want to see. We have a number of these machines in various styles of finish, the highest priced one is cheaper than you can get an ordinary machine for. You save money and save labor in getting a Wertheim.

These occasional rains cause havoc with the water by making it muddy and impure. We have been selling the Improved Stone Filter which makes it as clear as a crystal. There is another and very celebrated filter called the "Pasteur." We have made arrangements for handling this article which is exclusively used in public institutions, places of business and private houses in the United States. One of them has been placed in the Queen's Hospital and after a careful test in filtering muddy water milk and oil combined, Dr. Wood, the celebrated surgeon of Honolulu says:

"I have examined the 'Pasteur Filter' manufactured by the Pasteur Chamberland Company. I consider it the most efficient filter I have ever seen."

These filters are rented to persons or sold outright as preferred. Parties desiring to examine one can communicate with us and Mr. H. L. Theron will call upon them at their residence or place of business and thoroughly explain the working of it. We expect a large business in this article and from testimonials we have examined we have no hesitation in guaranteeing it to be a superior article.

Our stock of hanging lamps for people who do not use electric lights (as well as those who do) is as complete as any to be found in Honolulu. Our island trade in this respect is so large that we are obliged to keep our stock up in order to supply it.

There are a great many homes having zinc-lined bath tubs that are in good condition with this one exception: they lack the features of a porcelain lining. How to overcome this without going to the expense of getting a new tub, has been a question that has worried a great many.

One pot of our WHITE ENAMEL PAINT will do the work, forming as it does a GLOSSY SURFACE, almost equal in hardness and durability to that of porcelain itself, being at the same time hardly distinguishable from porcelain.

Consult your physician and he will tell you by all means to paint your bath tub with Enamel Paint.

The KEYSTONE EGG BEATERS are little gems. Try one if you want your eggs quickly and thoroughly beaten.

We also call your special attention to our economical BARREL and CYLINDER CHURNS, they are easy workers, have all sizes and prices.

We have a handy CLOTHES DRIER, having ten arms made to fasten on the wall, when not in use by a simple pull these arms fold up like a fan, thus taking up but little room.

Remember we sell Standard Oil Co.'s PEARL OIL at \$1.80 per case, C. O. D., delivered to any part of the city free.
